☎ +91-9120708359 ✉ suryadevsharma11@gmail.com  [LinkedIn](#)  [GitHub](#)  [Portfolio](#)  [LeetCode](#)

Summary

Backend Engineer skilled in Python, FastAPI, Django, and PostgreSQL. Built AI-powered and full-stack systems with Docker and REST APIs. HackWithInfy national finalist, 400+ DSA problems solved.

Skills

Programming: Python, C++, JavaScript, Java

Data & Machine Learning: Pandas, NumPy, Scikit-learn, TensorFlow, YOLOv8, OpenCV

Backend Development: Django, FastAPI, REST APIs

Databases: MySQL, PostgreSQL

Developer Tools: Git, GitHub, Streamlit, Render, Vercel, Docker

Core Concepts: Data Structures & Algorithms, OOP, DBMS, CN, OS

Experience

Summer Intern – Generative AI

June 2025 – August 2025

[Smart Internz | Remote](#)

- Built AI-powered chatbot applications using Gemini APIs and Python.
- Processed prompt-response datasets to improve model outputs.
- Integrated APIs and deployed applications on Render for real-time usage.

Projects

[IntelliGuard – AI-Based Fire & Smoke Detection System](#) / Python, YOLO, FastAPI, OpenCV

January 2026

- Built a computer vision pipeline to detect fire and smoke from live video streams using YOLOv8.
- Performed dataset preprocessing and evaluation achieving ~93% detection accuracy (mAP50).
- Developed a FastAPI backend service for model inference and real-time predictions.
- Integrated automated alert workflows using Telegram and email APIs.

[Krishi Sankalp – AI-Powered Agricultural Platform](#) / Python, FastAPI, React.js, PostgreSQL, TensorFlow **2025**

- Built full-stack farmer advisory platform across **3 phases** (planning, crop care, market linkage) using FastAPI, PostgreSQL, and React; containerized with Docker.
- Trained scikit-learn Random Forest for crop recommendation and TensorFlow CNN for plant disease detection across **38 classes** with treatment recommendations.
- Built geospatial KVK center finder, live mandi price dashboard, and district-level disease outbreak heatmap.

Awards & Certifications

- | | |
|---|-------------|
| • GATE Qualified – Computer Science | 2026 |
| • HackWithInfy – National Coding Challenge (Infosys) | 2025 |
| • Solved 400+ DSA problems on LeetCode & GeeksforGeeks | |
| • React.js, Django, JavaScript Certification – Udemy | 2023 |
| • Python Certification – UCER | 2023 |

Education

B.Tech Computer Science

Graduated: 2026

United College of Engineering and Research, Prayagraj

CGPA: 7.86 / 10
